

## **Post Graduate Diploma Programs in Department of Emerging Technologies**

**(Year of Commencement: 2022-23)**

Applications are invited for admission to the following one year Post Graduate Diploma Programs under the Department of Emerging Technologies in the School of Information Science and Technology:

1. Environmental Analytics
2. Energy Analytics
3. Health Analytics
4. Pharma Analytics
5. Sports Analytics

The programs are in collaboration with the Department of Environment, Renewable Energy, Centre for Digital Health and Pharmaceutical Technology respectively.

The PG Diploma programs will be a one-year full time program and students will earn their degree by completing 36 credit points, split among theory courses, projects and a thesis. The programme will be designed for students spent their first six months at the University, when they earn a maximum of 18 credits before proceeding to carry out either a research project or complete a pertinent review and write a thesis.

**Eligibility:** Applicants should have completed their Bachelor's Degree of minimum of 3 years duration or its equivalent (under the 10+2+3 or 10+2+4) of study or any other pattern fulfilling the mandatory requirements of 15 years formal education) from a recognised university, in any discipline. In all cases, a background in Mathematics and Programming is required.

**Selection Procedure:** The selection of candidates for admission to research programmes will be through an **Interview** to be held at the University.
